DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C.

112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1-11 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted steps are: According to the specification and Fig. 4., step 68 is essential for practicing the invention. The comparator is configured for comparing the packet signature of the received packet with at least one stored packet signature for classifying the received data packet relative to the corresponding user-programable template and prescribed user defined policies.(See claim 12 lines 7-9). Hence the method as claimed is incomplete since it is not clear what follows the step of generating the packet signature.
